Education

NEOMA Business School Master TEMA, Digital Management, Paris — **2021 – 2026**

John Carroll University Exchange semester, Cleveland, United States — **2024**

Epitech Exchange program, Paris — **2022**

Projects

Mail Scrapper V4.2
Excel, VBA, verification API

From a first name, last name and company, the tool generates likely addresses, verifies them through an API and caches the results so the same check is never paid for twice.

Email automation app
Excel, VBA, Outlook

One template, one prospect list, one click: every email goes out personalised with the right variables and the right attachment.
